The deadline is always, and simply, ASAP.

Whitney - thanks for handling so many issues while I'm out!!

Hi all – I don't have an official deadline. I'm copying Rebecca in case she wants to chime in on that.

Thanks - Whitney

Andrea,
I'm happy to work on this but I won't be able to get to it until later in the week (I am booked solid with meetings today until 4PM). I'm copying Whitney to ask what our timeline is for responding to the Senator's office.

Hi Mark. Can you help craft the responses to these questions from Tester's office?

Yes, I am covering for Rebecca today and next week.

Andrea, if you are here today give me a call to discuss process. Otherwise, we will chat on Tuesday. I'm at 312-6099.

Thanks - Whitney

Whitney,
Are you covering for Rebecca while she is out? If so, can you take the lead in making sure we have a timely response to the Q's below? Andrea would be a good person to start with.

Deb

Subject: RE: Superfund Alternative Approach Guidance

Hey all:

My colleague Chad Campbell spoke with community leaders and the below questions came out of that. This should also help give everyone context of what we're hearing on the ground. I believe the Agency had told some local residents that the alternative approach is faster which is part of the reason they are so interested in it. From what I gather, that's a tough question to answer as there are a lot of variables.

We covered much of this on the call but it would be helpful to get responses to the below so we can help disseminate the information.

Please let me know if you have any questions.

1. <!--[if !supportLists]--><!--[endif]-->Does the CFAC site qualify for the Superfund alternative approach?
2. <!--[if !supportLists]--><!--[endif]-->If so, is the Alternative Approach a faster and better method than the traditional NPL/Superfund approach?
3. <!--[if !supportLists]--><!--[endif]-->What are the advantages of the Alternative approach?
4. <!--[if !supportLists]--><!--[endif]-->What are the drawbacks of the Alternative approach?
5. <!--[if !supportLists]--><!--[endif]-->Who makes the decision as to which approach is used? Is there public comment/input on this approach?
6. <!--[if !supportLists]--><!--[endif]-->If the alternative approach is selected and Glencore/CFAC “walks away” after testing is completed, what happens? Does EPA then have to start the NPL process all over or does it get listed and Superfund procedures started?
7. <!--[if !supportLists]--><!--[endif]-->We were led to believe that the site was already listed on the NPL – please provide clarification on the process and where it currently stands?

Subject: Superfund Alternative Approach Guidance

Hi all,

Please find attached a copy of the Superfund Alternative Approach Guidance we discussed Thursday.

Please let me know if you have any questions.

Rebecca
